WHAT CAN YOU EXPECT FROM THE IN-SERVICE TRAINING?

The ENTRADA In-Service Training is an offer for adult educators and migrant support workers. It provides 4 blended learning modules that include phases of guided learning (25 hours) and of self-directed learning (15 hours). The training features innovative teaching strategies that are media-rich and interactive. As this offer is aimed at adults, general principles of adult education apply to all resources, meaning the contents are relevant to the professional life of adult educators and are centred on challenges and particular goals with the target group. The following modules are included in the ENTRADA In-Service Training:

Module 1
Introduction to **digital learning** with migrant audiences

Module 2
Dealing with **educational, cultural and linguistic barriers** in adult education provision for migrants

Module 3
Pedagogic and didactic strategies to support the development of civic, social and economic competences in migrants

Module 4
